### Attorney-Mentor Volunteer Sign-Up

Our attorney-mentor program matches new lawyers one-on-one with experienced mentors in order to assist with law practice management, effective client representation, and career development. Mentors provide guidance for new lawyers in all types of practices. Share your practical knowledge and experience, on an ongoing basis, with new lawyers during their critical transition from law student to legal practitioner. Benefits of becoming a mentor include: satisfaction of giving back to the profession; enjoyment in assisting a new attorney as they transition into practice; gratification from helping improve professionalism and civility in the profession; and fulfillment in gaining a new perspective on the practice from the new attorney. If you would like to volunteer and serve as a mentor, please complete this application and return it to the listed contact.

**PLEASE NOTE: All Bar members interested in serving as mentors, now and in the future, must complete this form, as we are refreshing our mentor database this year.**
